

Alumni organize Gallaudet College Fund campaign

Seven Gallaudet alumni came to Kendall Green Aug. 1 and 2 to learn about fundraising and to begin organizing the kick-off for this fall's Gallaudet College Fund campaign.

With the Gallaudet College Fund (formerly called the Annual Fund) the College is attempting to involve alumni with annual giving. This is the second year of the campaign.

The 1983 campaign will be a bit different from the previous year's. Two areas—The Washington Metropolitan area and Northern California—will have a TTY-A-Thon, where alumni will be contacted by telephone. Eight other areas will operate with personal contact and direct mail campaigns.

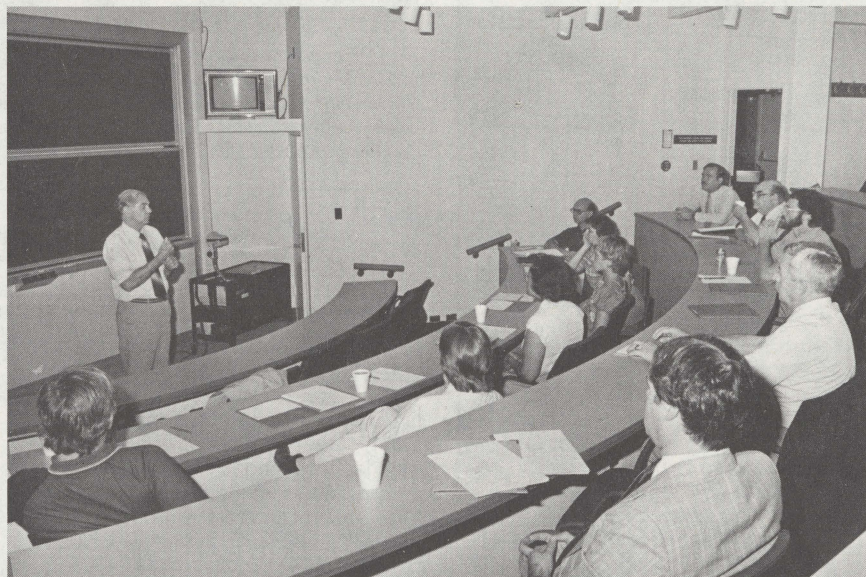

Last year's campaign covered five areas throughout the United States—Northern California, Washington, Michigan, New York and Colorado. This year the campaign has expanded to include five new areas—Illinois, Louisiana, Utah, Texas and Metropolitan Washington.

The workshop was conducted by Ernest Hoffmann, coordinator of the G.C. Fund in the Development Office. President Edward C. Merrill, Jr. welcomed participants and introduced W. Lloyd Johns, president-elect, who spoke briefly about the importance of alumni support. Other guest speakers were Mary Anne Pugin, coordinator of Alumni Programs with the Alumni/Public Relations Office; Clifford Rowley, New York area chairperson of the G.C. Fund; and Leo Jacobs of Fremont, CA, vice chairman of the Gallaudet College Fund Council. Terry Schavone, director of Development here, also spoke about the TTY-A-Thon program.

"Last year we had a slow beginning

because people were not used to giving," said Hoffmann. "This year we hope to increase our alumni gifts." Hoffman noted that, prior to the establishment of the Gallaudet College Fund, there were only two major fundraising campaigns that involved Gallaudet alumni—the Centennial Fund of 1964 and the Alumni House campaign which began in 1979. Last year 20-25% of the alumni were still making contributions to fulfill their pledges to the Alumni House, and only 4%—230—contributed to the Gallaudet College Fund.

Workshop participants have now gone back to their regions to organize volunteers for the campaign.

President Merrill addresses group of alumni attending Gallaudet College Fund campaign workshop in the Learning Center.

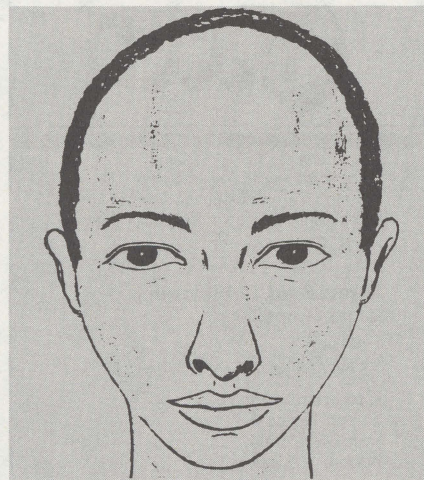

Clowns, balloons and sports were part of the entertainment for young and old at the Annual Staff Picnic held Aug. 5 on Kendall Green.

Campus alerted to theft suspect

On July 25, four campus employees were victims of a thief who stole purses, wallets and currency. According to the Department of Safety and Security, this individual has stolen items from people on campus prior to this time, and it is expected that he will return to campus.

The person has been described as a well dressed black male of slim build, approximately 18-23 years old, 5'11" and about 160 pounds. He is familiar with the campus and has held brief conversations with some of his victims.

Anyone having information about this person should contact the campus police investigative office at x5558.

This drawing of the reported theft suspect was created by W. J. Myers from descriptions of the suspect. Anyone with information of this person should call x5558. Report other suspicious or unidentified persons by calling DOSS at x5555 voice or x5666 TDD.

Funds available for research

The Division of Research has issued a Request for Proposals for its Small Grant Program. The program is designed to encourage Kendall Green faculty, staff and graduate students to conduct small research projects.

Approximately \$15,000 will be distributed during the upcoming fall, spring and summer terms. Typically, funded projects last for one year and vary in level of support from \$500 to \$2,000. It is anticipated that \$6,000 to \$8,000 will be allocated during the first funding cycle.

The deadline for applications is Sept. 15. Additional information can be obtained from budget unit heads and department chairpersons, or from the vice president for Research in Fay House.

Fulbright scholars visit Gallaudet

Two hundred Fulbright scholars from all over the world attended an Aug. 8 afternoon program on the accomplishments of deaf people in U.S. higher education held in the MSSD auditorium. The students are in Washington, D.C. for a three week orientation sponsored by the Consortium of Universities of the Washington Metropolitan Area and the United States Information Agency. Next they will begin graduate programs of study in universities across the country.

Merv Garretson, special assistant to the president, introduced the students to deaf people as a linguistic world community that represents people and not boundaries or locations. Later he spoke about sign languages and the position of deaf people in developing countries.

Don Pettingill, director of Programs in Adult and Community Education, stated that he was honored and pleased to address a group of "FLWs—future leaders of the world." He went on to explain that "deafness is not as much of a handicap as it is a frustrating nuisance." When Pettingill's new digital watch began to sound a melody alarm in the midst of presentation it became clear to the scholars that only he and Garretson could not hear the watch singing to the microphone. Giving the watch to Garretson, following the interpreter's alert to the distraction, Pettingill repeated that there are certain pitfalls to deafness.

A journalism student from Somalia remarked that he was so impressed with the possibilities for deaf people that he would write a story for his home country newspaper.

Personalities

Lak Y. An, who has been a television engineer with Gallaudet Television, has been named director of Technical Support Services within College Education Resources. TSS provides maintenance for the cable television system and audiovisual equipment and also operates the cable system. An has a bachelor's and master's degree in engineering. His office is in LN60 of the Learning Center and he can be reached at x5450.

An

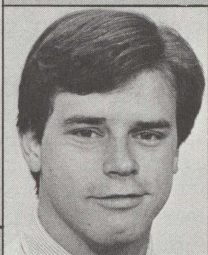

Edward

Donna Edward is a research assistant with the Sensory Communication Research Lab. She will be implementing experiments in speech perception and psychoacoustics with the deaf. She previously worked coordinating community services for handicapped adolescents and in education of the deaf. She has her master's in deaf education and a B.A. in speech pathology.

Kennehan

Lange

Richard Kennehan is the new production manager with GCTV and is responsible for supervising production activities of the television unit. He previously worked as production manager of WVPT in Harrisonburg, VA and as a producer/director at Youngstown State University Television Center. He has his BA in telecommunications and an AAB in business from Youngstown.

Andrew Lange is a student recruiter with Admissions. He is a May, 1983 graduate of Gallaudet and has worked at IBM as an EPOC student.

Wanner

Lola Wanner is a secretary with Research Dissemination. She has a BA in sociology and psychology and has previously worked as a legal secretary, computer operator, clerk-typist and counselor.

Don Pettingill, director of Programs in Adult and Community Education, talks with deaf leaders who came to Gallaudet July 31-Aug. 7 to participate in the Leadership Deaf Program. About 20 participants from around the country learned about the dynamics of leadership and about how organizations function. The training was sponsored by the National Academy and the National Association of the Deaf.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
08/29/83	ED: Special Education Media and Materials
08/29/83	ED: Technical Assistance in Education of Handicapped Children
08/29/83	ED: Research to Improve Reading Comprehension of Handicapped Children
09/10/83	ED: Instructional Materials for Mildly Handicapped Individuals
09/19/83	NEH: Youth Project Grants
No Specific Deadline	NSF: Honors Workshops for Pre-College Teachers of Science and Mathematics

Gallaudet team enters playoffs

Fifteen students, staff and faculty from the Gallaudet community competed their way this summer into the playoffs with members of the U.S. Senate Staff Club Softball League.

Gallaudet's team was in Division 4 of the League and played against teams from 12 different Senate offices, including those of Sen. Lowell Weicker (R-CT), Sen. Howard Baker (R-TN), Sen. Walter Huddleston (D-KY) and Sen. Bill Bradley (D-NJ). This was the first year Gallaudet played in the co-ed league. Three women must be on each co-ed team.

The Gallaudet players include John Parker, who is the coach and also a player, Ann Senstad, Don Devine and Ricky Ward from MSSD, students Walter Ripley, Pat O'Brien, Andy Bonheyo and Felice Pyser, and, from the College, Ben Baylor, Barbara Williamson, Marianne Turk, Mary Stansfield, Michelle Burney, Leo Cannon and Ernie Spriggs.

Gallaudet lost only three of the 12 games during the regular season. The first game of the playoffs was scheduled for Monday, Aug. 15 at MSSD. For more information call John Parker, x5963.

NSF Programs

The National Science Foundation is inviting applications for two new programs to improve pre-college mathematics and science education. The first is a \$12 million materials development program and the second is a \$2 million honors workshop for teachers in these subjects. Proposals may be submitted at any time.

The goal of the Materials Development for Pre-College Science and Mathematics program is to develop new or improved science and mathematics instruction materials and perform related applied research, analysis and dissemination of materials and information. Eligible disciplines are limited to mathematics, engineering, the natural sciences and computer science.

The Honors Workshop for Pre-College Teachers of Science and Mathematics seeks to motivate and increase the capabilities of pre-college teachers in these fields. Specialized training, practical experience and leadership training workshops, as well as special seminars and coursework, will be included.

For further information, contact the Office of Sponsored Research or Dr. J.G. Danek, Head, Program Review Section, National Science Foundation, Office of Scientific and Engineering Personnel and Education, Washington, D.C. 20550, 357-7539.
